

# Evolution of the Eurasian Patent System and Its Role in the Region

Leonid Voronetsky

Vice President

Eurasian Patent Office

<http://www.eapo.org/en/>

# EURASIAN PATENT CONVENTION

## FACTS AND FIGURES

- Eurasian Patent Convention (EAPC) was signed on September 9, 1994 in Moscow
- EAPC entered into force on August 12, 1995

# Contracting states of EAPC

- Azerbaijan Republic
- Republic of Armenia
- Republic of Belarus
- Republic of Kazakhstan
- Kyrgyz Republic
- Russian Federation
- Republic of Tajikistan
- Turkmenistan
- Republic of Moldova  
( till 26/04/2012)

# The Eurasian Patent

- economy and efficiency
  - one patent application
  - one set of fees
  - one language of the proceedings (Russian)
  - one examination
  - one patent agent
- a strong patent
  - patent search and substantive examination

# Eurasian applications

- 43702 Eurasian applications were filed from 1996 to 2015

# Filing of Eurasian applications

# Filing of Eurasian applications in 2015

# Accelerated Patent Prosecution

- Accelerated examination at any stage of prosecution – starting from filing to substantive examination, including patent granting (since June 1, 2016)
- Accelerated examination on PCT applications (analogous to PPH program) (since July 1, 2016)
- Accelerated examination on “green technologies” and conditions of the invention’s use (to be introduced by the end of 2016)

# EAPO Online (Electronic Filing)

- Filing (applications and additional materials)
- Personal Account (access to “own” applications)
- Tools for data uploading for SOPRANO and PHOENIX
- Tools for correspondence (electronic signature)
- Tools for rapid response

# Electronic filing

# EAPO Web Portal

- Information pages, documents
- Eurasian patents web-registry
- Eurasian publication server
- Private section (information for national patent offices and subscribers)
- National patent office sites (presently – only Turkmenistan)
- External forum (with strict control over right to access)

# Eurasian publication server

<http://www.eapo.org/ru/publications/publicat/>

■ main official publication since 2015

■ information about all front file and back file EA publications

■ in Russian only

The screenshot displays the search interface of the Eurasian Patent Organization (EAPO) website. The header features the EAPO logo and the text "ЕВРАЗИЙСКАЯ ПАТЕНТНАЯ ОРГАНИЗАЦИЯ (ЕАПО)". Navigation links for "RUS" and "ENG" are present, along with "Контактная информация" and "Банковские реквизиты". Search boxes for "Поиск по веб-порталу" and "Патентный поиск" are visible. A menu bar includes "ЕАПО", "Документы", "Официальные публикации", "Патенты", and "Международное сотрудничество". Below this, a secondary menu lists "Бюллетени", "Сервер публикаций", "Годовые отчёты", and "Оптические диски". The main content area is titled "Сервер публикаций" and contains a search form with the following fields and options:

- (11) Номер патентного документа: 010649 | 3144 | 000123 | 010649 | 201170001 | 201070056
- (21) Номер заявки: | 199800011 | 201070056 | 201100184
- (51) Индексы МПК: | A01B079/02 | F41H | C07D307
- (43)(45) Дата публикации: Любая ▾
- Номер бюллетеня: | 2011-02 | 1998-06
- Отметить все / Снять отметки
- A1 Евразийские заявки на изобретения, опубликованные с отчетом о патентном поиске
- A2 Евразийские заявки на изобретения, опубликованные без отчета о патентном поиске
- A3 Отчеты о патентном поиске по ранее опубликованным евразийским заявкам
- A8 Переизданные описания (титulyные листы) к евразийским заявкам
- A9 Переизданные описания к евразийским заявкам
- B1 Евразийские патенты на изобретения
- B2 Евразийские патенты на изобретения, по которым принято решение об изменении формулы изобретения
- B3 Евразийские патенты на изобретения, по которым принято решение об ограничении патента
- B8 Переизданные описания (титulyные листы) к евразийским патентам
- B9 Переизданные описания к евразийским патентам
- (13) Публикации описаний (по кодам вида публикации):
- Искать в Извещениях:
- Расширенный поиск:

Buttons for "Поиск" and "Очистить" are located at the bottom of the search form.

# EAPATIS

Production operation at EAPO since 2000

Used by patent offices (14 offices, ~800 examiners), libraries, universities, patent attorneys, business (fee-based access).

## EAPATIS in figures:

- Patent information from over 20 countries and organizations
- 26 local databases
- Over 63 million patent documents, including PCT minimum documentation
- ~ 1 million queries served annually
- Over 1000 registered users

## Main functions:

- Electronic patent collection management
- Providing network access to patent data in local and remote DBs
- Providing of multi-aspect searches within the collection
- Storage and processing of documents found

# Work share

- Enhancement and extension of cooperation with patent offices and organizations, scientific and innovation centers, unions of patent attorneys
- Exchange of search and examination results internationally
- Participation in accelerated patent prosecution and Patent Prosecution Highway programs (PPH)
  - Japan – ongoing
  - EPO – planned
  - Further extension of PPH with different IPOs

**Thank You !**
