5.2: International IP Rights: Tips and tricks for international trade mark applications

5.2: International IP Rights

As the world economy becomes ever more interconnected, trade mark owners need to protect their intellectual property on a global scale.

Practitioners therefore need to be aware of issues involved in protecting their clients' IP on an international scale.

IP rights traditionally have been bound by national borders, but international treaties such as the Madrid Protocol have made protecting IP rights in multiple jurisdictions much easier

5.2: International IP Rights

This session will examine the tools available to practitioners for protecting their clients' IP globally and will offer some practical tips and tricks for navigating the international trade mark application landscape.

Example

- I am filing an international application through the Finnish Patent and Registration Office as follows:

- Mark: 
- Classes: 3, 11, 21, 41 and 44
- Countries: China, Japan and the United States of America
- For now I do not want protection in classes 5 and 9 in Japan. Then, I would like to limit the protection of class 3 to “beauty masks” for all countries and “online retail store services featuring cosmetics and dietary supplements” in class 35 in USA.

You may limit the list of G&S in respect of one or more Member states

10 GOODS AND SERVICES

You can find indications that are pre-accepted by the International Bureau in the Madrid Goods & Services Manager (MGS) at www.wipo.int/mgs/. By using these indications you can avoid possible irregularities concerning the classification of goods and services and a delay in the recording of the international registration.

Please make consistent use of a semicolon (;) to clearly specify the goods and services indications in your list, e.g.:
09 Scientific, optical and electronic apparatus and instruments; screens for photoengraving; computers.
35 Advertising; compilation of statistics; commercial information agencies.

Please use font “Courier New” or “Times New Roman”, size 12 pt, or above.

(a) Indicate below the goods and services for which the international registration is sought:

| Class | Goods and services |
|----------|---|
| Class 7: | Knives [parts of machines]; saw blades [parts of machines]; machines and machine tools; sifting installations; disintegrators; mixing machines; heat exchangers [parts of machines]; rotary steam presses, portable, for fabrics. |

(b) The applicant wishes to limit the list of goods and services in respect of one or more designated Contracting Parties, as follows:

| Contracting Party | Class(es) or list of goods and services for which protection is sought in this Contracting Party |
|--------------------------|--|
| Unites States of America | Class 7: Disintegrators; mixing machines; rotary steam presses, portable, for fabrics. |
| Republic of Korea | Class 7: Knives [parts of machines]; saw blades [parts of machines]; sifting installations; mixing machines; heat exchangers [parts of machines]; rotary steam presses, portable, for fabrics. |
