

Session 6: AI in Patent Practice

Moderator: C. Gregory Gramenopoulos, Finnegan

Panelists: Chris Parsonson, Solve Intelligence

Helen Chacon, Legora

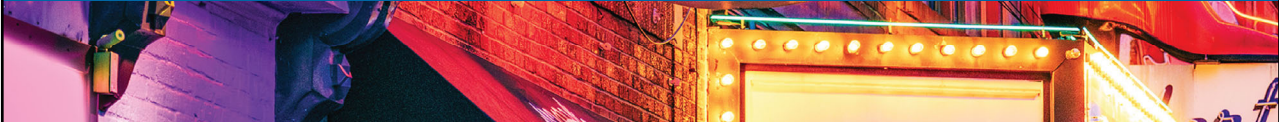

Oskar Block, Stilta

AI in Patent Practice

MODERATED BY
C. Gregory Gramenopoulos
 Partner
 Finnegan, Henderson, Farabow, Garrett & Dunner, LLP

1

Agenda

- **Panel Presentation**
 (50 min.)
- **Product Demos**
 (30 min.)
- **Audience Q&A**
 (10 min.)

Goals:

Explore current AI capabilities, real-world use cases, and integration with law firm systems.

Address data security and confidentiality considerations, and what patent professionals can expect as these tools continue to evolve.

Demos of the latest AI features and capabilities.

FICPI ABC MEETING | NASHVILLE | JUNE 2026 2

3

Panel Topics

- I. Current Capabilities and Overview
- II. Workflows and Use Case Identification
- III. Technical Needs and Law Firm Integration
- IV. Data Security, Privacy, and Compliance
- V. Future Implementation and Outlook

FICPI ABC MEETING | NASHVILLE | JUNE 2026 4

4

I. Current Capabilities and Overview

(All Panelists)

- Please provide an overview of your platform's core capabilities.
- How does your platform handle the unique aspects of patent work—such as patent drafting, claim charting, or invalidity/infringement analysis?
- What are the advantages of using a specialized platform or tool?

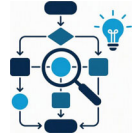

FICPI ABC MEETING | NASHVILLE | JUNE 2026 5

5

II. Workflow and Use Case Identification

(Helen, Chris)

- How do you help law firms identify high-value use cases for AI adoption within their existing patent practice?
- Do you offer workflow assessment tools, ROI calculators, or other frameworks to support IP practices?
- Please share examples of how your platform integrates into common law firm systems and databases (e.g., docketing systems, iManage, NetDocs, etc).

FICPI ABC MEETING | NASHVILLE | JUNE 2026 6

6

III. Technical Needs and Law Firm Integration

(Oskar, Chris)

- **What are the key technical needs for seamless integration into a law firm environment? For example, what APIs, security options, and/or infrastructure requirements do firms typically need?**
- **What training or fine-tuning options exist for firm-specific data, terminology, or preferences (e.g., preferred drafting or writing styles)?**

FICPI ABC MEETING | NASHVILLE | JUNE 2026 7

7

IV. Data Security, Privacy, and Compliance

(Helen, Oskar)

- **Please describe your encryption standards, data residency options, and measures to prevent unauthorized access or model training on client data.**
- **How do you address concerns around confidentiality for highly sensitive patent applications, trade secrets, and attorney-client privileged information?**

FICPI ABC MEETING | NASHVILLE | JUNE 2026 8

8

V. Future Implementation and Outlook

(All Panelists)

- Looking ahead 6-12 months, what new capabilities (e.g., multi-agent systems, automated workflows, etc) do you plan to introduce for patent professionals?
- How will legal tech solutions evolve over the next 1-3 years?
